Dear Sarah,

Thank you for your note and status report. I will share with the client and our air modeling consultants, and then be in touch in response to your question. We look forward to hearing from the EPA following the OAQPS consultation.

Regards,

**Matthew E. Cohn**

Dear Matt,

Thank you again for your May 24, 2018 submittal on behalf of USG Interior Inc. We are still reviewing the information you provided and we are also consulting the air quality modeling group at OAQPS.

Based on your cover letter, we understand that you are continuing to complete phase 2 of the modeling protocol and that you will share the results with EPA and MPCA. Could you please let me know what is your timetable for completion?

Best regards,

Sarah J. Stillman

Thank you Matt.

We are reviewing your submittal and I will let you know when we are ready to talk.

Sincerely,

- Sarah

MULTIPLE RECIPIENTS, DO NOT "REPLY ALL"

Dear Ms. Stillman:

Responding to your letter dated April 3, 2018, and following up on our meeting of January 11, 2018, please find the attached letter from me along with a Modeling Protocol prepared by Barr Engineering. I have copied on this email your modeling staff Daniel Schaufelberger and Randall Robinson, as well as Corey Boeck from the MPCA, USG's environmental consultants, and USG's plant and environmental management staff. A paper copy of the attached letter and the Modeling Protocol are also being delivered to your office.

I have also been asked to share the following note for your modelers:

Please note that the modeling protocol submittal does not contain supporting files. The size of many of these files precludes their submittal as part of this package. In addition, the UMORE Park meteorological data used as part of USG's modeling is not publically available and some additional arrangements will be needed to provide this information. USG encourages EPA modeling staff to reach out to Jeff Bennett, Barr Engineering, at (573) 638-5033 or [jbennett@barr.com](mailto:jbennett@barr.com) to request the supporting files for the modeling analyses and/or the Phase 1 modeling input/outputs and make the necessary arrangements for the meteorological information.

Please do not hesitate to contact me to discuss anything. I look forward to hearing from you after EPA has the opportunity to consider this submittal.

Respectfully yours,

**Matthew E. Cohn**
